Résumé

Professional Profile

I am a quality driven and focused frontend engineer with more than 10 years of experience efficiently using web technologies to develop complex web applications for international brands. Clients and colleagues enjoy collaborating with me to build award winning websites and applications. I have a keen eye for design and always go the extra mile to craft a better experience. I am a specialist in JavaScript with an extensive knowledge in full stack development. I apply fundamental knowledge and new tools to craft a unique and modern experience.
